

Vision :

- To become a centre of excellence in imparting and dissemination the knowledge of shareera kriya amongst the seekers of Ayurveda.

Mission :

- To make students understand the principles of shareera kriya and enabling them to practice these principles to “live Ayurveda and practice Ayurveda”
- Enabling the students to understand the nuances of physiology and to nurture them to utilise them in the field of Applied physiology

Goals (Short term)

- To generate interest in students to study Samhitha based Shastrokta Ayurveda (Scriptural Ayurveda)
- To prepare students to face examinations and to face the challenges in their higher studies by giving a proper foundation of shareera kriya

Goals (long term)

- Developing models and specimens for teaching functional physiology and shareera kriya through a well planned museum

Objectives

- To improve teaching resources in the subject of shareera kriya by the help of digital mediums, audio- visual teaching aids, through innovative teaching and through brain storming sessions.
- To develop charts and displays on shareera kriya for better understanding
- To develop resources for effective teaching of applied branches of physiology like exercise physiology and environmental physiology

Collaboration

- With all the departments of the institution.
